## WORK EXPERIENCE

FULL STACK DEVELOPER | Argosmob                                                       AUG-2025 to SEP-2025

- Developed a pet-parent social media platform with post creation, deletion, and reporting features.
- Integrated REST APIs between backend and frontend; implemented real-time chat and like/comment functionalities.
- Built Pet management system for user-registered pet profiles using React.js, Node.js, Express.js, MongoDB, and Firebase.

BACKEND DEVELOPER | Argosmob                                                       JUN-2025 to AUG-2025

- Developed a complete E-commerce platform with Admin, Vendor, Sub-Vendor, and Super-Vendor panels, including frontend and backend integration.
- Created and optimized RESTful APIs for another E-commerce project, enabling smooth communication between backend and frontend.
- Tech Stack: React.js, Node.js, Express.js, MongoDB

## PROJECTS

AI-Powered Personal Portfolio                                                       06/2023 - 07/2023 Client's Project
A smart portfolio website built to showcase my skills, projects, and offer instant interaction through an AI chatbot.
- Developed using React TSX and Tailwind CSS for a clean, responsive, and modern UI.
- Integrated Noupe AI chatbot to explain my work and provide WhatsApp contact for project inquiries.

Job Board Platform                                                       05/2023 - 08/2023 Self Project
A platform connecting employers and job seekers
- Built a full-stack job posting platform where employers can post jobs and users can apply
- Utilized React.js, Node.js, Express, and MongoDB in the development

Social Media WebApp                                                       08/2025 - 10/2025 (Argosmob)
A social media platform cantered around pets
- Developed a social media application for pets, featuring user interaction and real-time chat
- Technologies used include React, Tailwind CSS, Express.js, and Firebase

Luna E-Commerce Admin Panel                                                       07/2025 - 08/2025 (Argosmob)
A panel for managing e-commerce operations
- Developed an e-commerce admin panel with integration of APIs for product, user, and order management
