PROFESSIONAL SUMMARY

Full Stack Developer experienced in building scalable MERN applications, real-time systems, and REST APIs. Currently working on ERP and recruitment CRM platforms, contributing to frontend, backend, and system design. Skilled in deploying backend services (Python + MongoDB) on VPS and integrating AI-based resume screening solutions. Pursuing BCA (final semester, graduating soon).

TECHNICAL SKILLS

- Languages: HTML, CSS, JavaScript, SQL
- Frameworks: React.js, Bootstrap, Tailwind CSS
- Tools: Git, GitHub, Postman, Netlify, Vercel, Render, System Design (Basics)
- Backend & Databases: Node.js, Express.js, PHP, MongoDB, MySQL
- Platform: Google Firebase (Basics), REST API, Linux, AWS (Basics)
- Soft Skills: Project Management, People Management, Good Communication Skills

WORK EXPERIENCE

FULL STACK DEVELOPER (Intern + Contract) | Argosmob Jun 2025 – Sep 2025

- Developed a pet-centric social media platform with features like post creation, reporting, likes, comments, and real-time chat functionality.
- Built and integrated RESTful APIs ensuring seamless communication between frontend and backend systems.
- Designed and implemented a pet management system for user profiles using React.js, Node.js, Express.js, MongoDB, and Firebase.
- Contributed to a multi-role E-commerce platform (Admin, Vendor, Sub-vendor), handling both frontend and backend development.
- Optimized API performance and improved data handling for scalable application performance.

FULL STACK DEVELOPER | Navsant Group Dec 2025 – Present

- Designing and developing frontend for internal ERP system, improving usability and workflow efficiency.
- Contributing to backend development by collaborating on core APIs and system architecture.
- Participating in basic system design and module structuring for scalable application development.
- Building a recruitment CRM platform to streamline hiring processes including candidate tracking and management.
- Developing frontend interfaces and contributing to backend logic for recruitment workflows.
- Integrated AI-based resume screening system; deployed and managed backend services (Python + MongoDB) on VPS.
- Handling deployment, hosting, and maintenance of backend services ensuring high availability and performance.

PROJECTS

AI-Powered Personal Portfolio 06/2023 - 07/2023 Own Portfolio

A smart portfolio website built to showcase my skills, projects, and offer instant interaction through an AI chatbot.

- Developed using React TSX and Tailwind CSS for a clean, responsive, and modern UI.
- Integrated Noupe AI chatbot to explain my work and provide WhatsApp contact for project inquiries.

Social Media WebApp 08/2025 - 10/2025 (Argosmob)

A social media platform centered around pets

- Developed a social media application for pets, featuring user interaction and real-time chat
- Technologies used include React, Tailwind CSS, Express.js, and Firebase

CRD Placement Management Mobile App (Ongoing)

- Developing a React Native-based mobile application to streamline college placement processes
- Implementing student profile management with education details and resume upload functionality
- Designed one-click job application system for campus drives with ATS-based resume shortlisting
- Building backend services and APIs for scalable data handling and integration with ERP login system
