PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in building scalable MERN stack applications, REST APIs, and real-time systems. Worked on ERP platforms, recruitment CRM solutions, and AI-powered resume screening systems, contributing across frontend, backend, and deployment workflows. Skilled in React.js, Node.js, Express.js and problem-solving. Bachelor of Computer Application graduate passionate about developing efficient and user-centric web applications.

TECHNICAL SKILLS

- Languages: HTML, CSS, JavaScript, SQL
 - Frameworks: React.js, Bootstrap, Tailwind CSS
 - Tools: Git, GitHub, Postman, Netlify, Vercel, Render, System Design (Basics)
 - Backend & Databases: Node.js, Express.js, PHP, MongoDB, MySQL, PostgreSQL, Prisma
 - Platform: Google Firebase (Basics), REST API, Linux, AWS (Basics)
 - Soft Skills: Project Management, Good Communication Skills, Team Management
-

WORK EXPERIENCE

FULL STACK DEVELOPER (Intern + Contract) | Argosmob

Jun 2025 – Sep 2025

- Developed a pet-centric social media platform with features like post creation, reporting, likes, comments, and real-time chat functionality.
- Built and integrated RESTful APIs ensuring seamless communication between frontend and backend systems.
- Designed and implemented a pet management system for user profiles using React.js, Node.js, Express.js, MongoDB, and Firebase.
- Contributed to a multi-role E-commerce platform (Admin, Vendor, Sub-vendor), handling both frontend and backend development.

FULL STACK DEVELOPER | Navsant Group

Dec 2025 – May 2026

- Designing and developing frontend for internal ERP system, improving usability and workflow efficiency.
 - Contributing to backend development by collaborating on core APIs and system architecture.
 - Participating in basic system design and module structuring for scalable application development.
 - Building a recruitment CRM platform to streamline hiring processes including candidate tracking and management.
 - Developing frontend interfaces and contributing to backend logic for recruitment workflows.
 - Integrated AI-based resume screening system; deployed and managed backend services (Python + MongoDB) on VPS.
-

PROJECTS

AI-Powered Personal Portfolio

06/2023 - 07/2023 Own Portfolio

A smart portfolio website built to showcase my skills, projects, and offer instant interaction through an AI chatbot.

- Developed using React TSX and Tailwind CSS for a clean, responsive, and modern UI.
- Integrated Noup AI chatbot to explain my work and provide WhatsApp contact for project inquiries.

Social Media WebApp

08/2025 - 10/2025 (Argosmob)

A social media platform centered around pets

- Developed a social media application for pets, featuring user interaction and real-time chat
- Technologies used include React, Tailwind CSS, Express.js, and Firebase

CRD Placement Management Mobile App (Ongoing)

- Developing a React Native-based mobile application to streamline college placement processes
 - Implementing student profile management with education details and resume upload functionality
 - Designed one-click job application system for campus drives with ATS-based resume shortlisting
 - Building backend services and APIs for scalable data handling and integration with ERP login system
-

ACHIEVEMENTS

- Secured **3rd Prize** in *Web-Wrangling Wild West Hackathon* at PCTE (March 2025) for web development and problem-solving under competitive conditions.
- Won **2nd Prize** in *Web Wizard Competition* at *Tech-Pragya 2025*, GNA University, showcasing frontend and web development skills.
